Casey Chen

Software engineer

London, United Kingdom casey.chen@example.com example.com/casey

Summary

I build useful tools for small teams, with an emphasis on clear interfaces and reliable delivery.

Experience

Software engineer, Lantern Workshop
Jan 2022 – present
A fictional team creating tools for community organisations.

- Built a booking service that helps staff see availability and recover from incomplete reservations.
- Worked with support colleagues to improve error messages and document common recovery steps.

Python · PostgreSQL · accessible interfaces

Guest mentor, Willow Studio
May 2024 – May 2024

- Helped a small student team turn a research prototype into a usable demonstration.

Education

BSc, Computer Science
Brookfield College
Sept 2018 – June 2021

Skills

Technical: Python, PostgreSQL, eBPF, iOS

Practice: patient mentoring, clear writing, collaborative delivery
